

# Test Cases Report - 65 Test Cases

Total Test Cases	65
Categories	Integration, Functional, Usability, Security, Performance
Priority Levels	Critical, Low, Medium, High
Generated On	2025-07-31 15:53:19

## Test Case 1: System Functional Test 1

Test ID	TC_001
Module	System > Module_1
Category	Functional
Priority	Critical
Test Type	Positive
Risk Level	High
Estimated Time	15 minutes
Description	Comprehensive functional validation test case 1
Objective	Validate functional requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to functional test area; Execute primary test workflow;
Expected Result	System handles functional requirements correctly
Validation Criteria	Functional requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

## Test Case 2: System Security Test 2

Test ID	TC_002
Module	System > Module_1
Category	Security
Priority	High
Test Type	Negative
Risk Level	High
Estimated Time	16 minutes

Description	Comprehensive security validation test case 2
Objective	Validate security requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to security test area; Execute primary test workflow; V
Expected Result	System handles security requirements correctly
Validation Criteria	Security requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

### Test Case 3: System Performance Test 3

Test ID	TC_003
Module	System > Module_1
Category	Performance
Priority	Medium
Test Type	Boundary
Risk Level	Medium
Estimated Time	17 minutes
Description	Comprehensive performance validation test case 3
Objective	Validate performance requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to performance test area; Execute primary test workflow
Expected Result	System handles performance requirements correctly
Validation Criteria	Performance requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

### Test Case 4: System Integration Test 4

Test ID	TC_004
Module	System > Module_1
Category	Integration
Priority	Low
Test Type	Error
Risk Level	Low
Estimated Time	18 minutes
Description	Comprehensive integration validation test case 4

Objective	Validate integration requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to integration test area; Execute primary test workflow
Expected Result	System handles integration requirements correctly
Validation Criteria	Integration requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

### Test Case 5: System Usability Test 5

Test ID	TC_005
Module	System > Module_1
Category	Usability
Priority	Critical
Test Type	Positive
Risk Level	High
Estimated Time	19 minutes
Description	Comprehensive usability validation test case 5
Objective	Validate usability requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to usability test area; Execute primary test workflow; V
Expected Result	System handles usability requirements correctly
Validation Criteria	Usability requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

### Test Case 6: System Functional Test 6

Test ID	TC_006
Module	System > Module_1
Category	Functional
Priority	High
Test Type	Negative
Risk Level	High
Estimated Time	20 minutes
Description	Comprehensive functional validation test case 6
Objective	Validate functional requirements and system behavior

Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to functional test area; Execute primary test workflow;
Expected Result	System handles functional requirements correctly
Validation Criteria	Functional requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

## Test Case 7: System Security Test 7

Test ID	TC_007
Module	System > Module_1
Category	Security
Priority	Medium
Test Type	Boundary
Risk Level	Medium
Estimated Time	21 minutes
Description	Comprehensive security validation test case 7
Objective	Validate security requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to security test area; Execute primary test workflow; V
Expected Result	System handles security requirements correctly
Validation Criteria	Security requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

## Test Case 8: System Performance Test 8

Test ID	TC_008
Module	System > Module_1
Category	Performance
Priority	Low
Test Type	Error
Risk Level	Low
Estimated Time	22 minutes
Description	Comprehensive performance validation test case 8
Objective	Validate performance requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available

Test Steps	Access the system using appropriate credentials; Navigate to performance test area; Execute primary test workflow
Expected Result	System handles performance requirements correctly
Validation Criteria	Performance requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

## Test Case 9: System Integration Test 9

Test ID	TC_009
Module	System > Module_1
Category	Integration
Priority	Critical
Test Type	Positive
Risk Level	High
Estimated Time	23 minutes
Description	Comprehensive integration validation test case 9
Objective	Validate integration requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to integration test area; Execute primary test workflow
Expected Result	System handles integration requirements correctly
Validation Criteria	Integration requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

## Test Case 10: System Usability Test 10

Test ID	TC_010
Module	System > Module_1
Category	Usability
Priority	High
Test Type	Negative
Risk Level	High
Estimated Time	24 minutes
Description	Comprehensive usability validation test case 10
Objective	Validate usability requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to usability test area; Execute primary test workflow; V

Expected Result	System handles usability requirements correctly
Validation Criteria	Usability requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

### Test Case 11: System Functional Test 11

Test ID	TC_011
Module	System > Module_2
Category	Functional
Priority	Medium
Test Type	Boundary
Risk Level	Medium
Estimated Time	25 minutes
Description	Comprehensive functional validation test case 11
Objective	Validate functional requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to functional test area; Execute primary test workflow;
Expected Result	System handles functional requirements correctly
Validation Criteria	Functional requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

### Test Case 12: System Security Test 12

Test ID	TC_012
Module	System > Module_2
Category	Security
Priority	Low
Test Type	Error
Risk Level	Low
Estimated Time	26 minutes
Description	Comprehensive security validation test case 12
Objective	Validate security requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to security test area; Execute primary test workflow; V
Expected Result	System handles security requirements correctly

Validation Criteria	Security requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

### Test Case 13: System Performance Test 13

Test ID	TC_013
Module	System > Module_2
Category	Performance
Priority	Critical
Test Type	Positive
Risk Level	High
Estimated Time	27 minutes
Description	Comprehensive performance validation test case 13
Objective	Validate performance requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to performance test area; Execute primary test workflow
Expected Result	System handles performance requirements correctly
Validation Criteria	Performance requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

### Test Case 14: System Integration Test 14

Test ID	TC_014
Module	System > Module_2
Category	Integration
Priority	High
Test Type	Negative
Risk Level	High
Estimated Time	28 minutes
Description	Comprehensive integration validation test case 14
Objective	Validate integration requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to integration test area; Execute primary test workflow
Expected Result	System handles integration requirements correctly
Validation Criteria	Integration requirements are satisfied; System maintains stability; Data integrity is preserved

Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

## Test Case 15: System Usability Test 15

Test ID	TC_015
Module	System > Module_2
Category	Usability
Priority	Medium
Test Type	Boundary
Risk Level	Medium
Estimated Time	29 minutes
Description	Comprehensive usability validation test case 15
Objective	Validate usability requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to usability test area; Execute primary test workflow; V
Expected Result	System handles usability requirements correctly
Validation Criteria	Usability requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

## Test Case 16: System Functional Test 16

Test ID	TC_016
Module	System > Module_2
Category	Functional
Priority	Low
Test Type	Error
Risk Level	Low
Estimated Time	30 minutes
Description	Comprehensive functional validation test case 16
Objective	Validate functional requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to functional test area; Execute primary test workflow;
Expected Result	System handles functional requirements correctly
Validation Criteria	Functional requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup

Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)
-------	--

### Test Case 17: System Security Test 17

Test ID	TC_017
Module	System > Module_2
Category	Security
Priority	Critical
Test Type	Positive
Risk Level	High
Estimated Time	31 minutes
Description	Comprehensive security validation test case 17
Objective	Validate security requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to security test area; Execute primary test workflow; V
Expected Result	System handles security requirements correctly
Validation Criteria	Security requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

### Test Case 18: System Performance Test 18

Test ID	TC_018
Module	System > Module_2
Category	Performance
Priority	High
Test Type	Negative
Risk Level	High
Estimated Time	32 minutes
Description	Comprehensive performance validation test case 18
Objective	Validate performance requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to performance test area; Execute primary test workflow
Expected Result	System handles performance requirements correctly
Validation Criteria	Performance requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

## Test Case 19: System Integration Test 19

Test ID	TC_019
Module	System > Module_2
Category	Integration
Priority	Medium
Test Type	Boundary
Risk Level	Medium
Estimated Time	33 minutes
Description	Comprehensive integration validation test case 19
Objective	Validate integration requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to integration test area; Execute primary test workflow
Expected Result	System handles integration requirements correctly
Validation Criteria	Integration requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

## Test Case 20: System Usability Test 20

Test ID	TC_020
Module	System > Module_2
Category	Usability
Priority	Low
Test Type	Error
Risk Level	Low
Estimated Time	34 minutes
Description	Comprehensive usability validation test case 20
Objective	Validate usability requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to usability test area; Execute primary test workflow; V
Expected Result	System handles usability requirements correctly
Validation Criteria	Usability requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

## Test Case 21: System Functional Test 21

Test ID	TC_021
Module	System > Module_3
Category	Functional
Priority	Critical
Test Type	Positive
Risk Level	High
Estimated Time	15 minutes
Description	Comprehensive functional validation test case 21
Objective	Validate functional requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to functional test area; Execute primary test workflow;
Expected Result	System handles functional requirements correctly
Validation Criteria	Functional requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

## Test Case 22: System Security Test 22

Test ID	TC_022
Module	System > Module_3
Category	Security
Priority	High
Test Type	Negative
Risk Level	High
Estimated Time	16 minutes
Description	Comprehensive security validation test case 22
Objective	Validate security requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to security test area; Execute primary test workflow; V
Expected Result	System handles security requirements correctly
Validation Criteria	Security requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

## Test Case 23: System Performance Test 23

Test ID	TC_023
Module	System > Module_3
Category	Performance
Priority	Medium
Test Type	Boundary
Risk Level	Medium
Estimated Time	17 minutes
Description	Comprehensive performance validation test case 23
Objective	Validate performance requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to performance test area; Execute primary test workflow
Expected Result	System handles performance requirements correctly
Validation Criteria	Performance requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

### Test Case 24: System Integration Test 24

Test ID	TC_024
Module	System > Module_3
Category	Integration
Priority	Low
Test Type	Error
Risk Level	Low
Estimated Time	18 minutes
Description	Comprehensive integration validation test case 24
Objective	Validate integration requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to integration test area; Execute primary test workflow
Expected Result	System handles integration requirements correctly
Validation Criteria	Integration requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

### Test Case 25: System Usability Test 25

Test ID	TC_025
---------	--------

Module	System > Module_3
Category	Usability
Priority	Critical
Test Type	Positive
Risk Level	High
Estimated Time	19 minutes
Description	Comprehensive usability validation test case 25
Objective	Validate usability requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to usability test area; Execute primary test workflow; V
Expected Result	System handles usability requirements correctly
Validation Criteria	Usability requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

### Test Case 26: System Functional Test 26

Test ID	TC_026
Module	System > Module_3
Category	Functional
Priority	High
Test Type	Negative
Risk Level	High
Estimated Time	20 minutes
Description	Comprehensive functional validation test case 26
Objective	Validate functional requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to functional test area; Execute primary test workflow; V
Expected Result	System handles functional requirements correctly
Validation Criteria	Functional requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

### Test Case 27: System Security Test 27

Test ID	TC_027
Module	System > Module_3

Category	Security
Priority	Medium
Test Type	Boundary
Risk Level	Medium
Estimated Time	21 minutes
Description	Comprehensive security validation test case 27
Objective	Validate security requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to security test area; Execute primary test workflow; V
Expected Result	System handles security requirements correctly
Validation Criteria	Security requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

### Test Case 28: System Performance Test 28

Test ID	TC_028
Module	System > Module_3
Category	Performance
Priority	Low
Test Type	Error
Risk Level	Low
Estimated Time	22 minutes
Description	Comprehensive performance validation test case 28
Objective	Validate performance requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to performance test area; Execute primary test workflow
Expected Result	System handles performance requirements correctly
Validation Criteria	Performance requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

### Test Case 29: System Integration Test 29

Test ID	TC_029
Module	System > Module_3
Category	Integration

Priority	Critical
Test Type	Positive
Risk Level	High
Estimated Time	23 minutes
Description	Comprehensive integration validation test case 29
Objective	Validate integration requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to integration test area; Execute primary test workflow
Expected Result	System handles integration requirements correctly
Validation Criteria	Integration requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

### Test Case 30: System Usability Test 30

Test ID	TC_030
Module	System > Module_3
Category	Usability
Priority	High
Test Type	Negative
Risk Level	High
Estimated Time	24 minutes
Description	Comprehensive usability validation test case 30
Objective	Validate usability requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to usability test area; Execute primary test workflow; V
Expected Result	System handles usability requirements correctly
Validation Criteria	Usability requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

### Test Case 31: System Functional Test 31

Test ID	TC_031
Module	System > Module_4
Category	Functional
Priority	Medium

Test Type	Boundary
Risk Level	Medium
Estimated Time	25 minutes
Description	Comprehensive functional validation test case 31
Objective	Validate functional requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to functional test area; Execute primary test workflow;
Expected Result	System handles functional requirements correctly
Validation Criteria	Functional requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

### Test Case 32: System Security Test 32

Test ID	TC_032
Module	System > Module_4
Category	Security
Priority	Low
Test Type	Error
Risk Level	Low
Estimated Time	26 minutes
Description	Comprehensive security validation test case 32
Objective	Validate security requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to security test area; Execute primary test workflow; V
Expected Result	System handles security requirements correctly
Validation Criteria	Security requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

### Test Case 33: System Performance Test 33

Test ID	TC_033
Module	System > Module_4
Category	Performance
Priority	Critical
Test Type	Positive

Risk Level	High
Estimated Time	27 minutes
Description	Comprehensive performance validation test case 33
Objective	Validate performance requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to performance test area; Execute primary test workflow
Expected Result	System handles performance requirements correctly
Validation Criteria	Performance requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

### Test Case 34: System Integration Test 34

Test ID	TC_034
Module	System > Module_4
Category	Integration
Priority	High
Test Type	Negative
Risk Level	High
Estimated Time	28 minutes
Description	Comprehensive integration validation test case 34
Objective	Validate integration requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to integration test area; Execute primary test workflow
Expected Result	System handles integration requirements correctly
Validation Criteria	Integration requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

### Test Case 35: System Usability Test 35

Test ID	TC_035
Module	System > Module_4
Category	Usability
Priority	Medium
Test Type	Boundary
Risk Level	Medium

Estimated Time	29 minutes
Description	Comprehensive usability validation test case 35
Objective	Validate usability requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to usability test area; Execute primary test workflow; V
Expected Result	System handles usability requirements correctly
Validation Criteria	Usability requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

### Test Case 36: System Functional Test 36

Test ID	TC_036
Module	System > Module_4
Category	Functional
Priority	Low
Test Type	Error
Risk Level	Low
Estimated Time	30 minutes
Description	Comprehensive functional validation test case 36
Objective	Validate functional requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to functional test area; Execute primary test workflow;
Expected Result	System handles functional requirements correctly
Validation Criteria	Functional requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

### Test Case 37: System Security Test 37

Test ID	TC_037
Module	System > Module_4
Category	Security
Priority	Critical
Test Type	Positive
Risk Level	High
Estimated Time	31 minutes

Description	Comprehensive security validation test case 37
Objective	Validate security requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to security test area; Execute primary test workflow; V
Expected Result	System handles security requirements correctly
Validation Criteria	Security requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

### Test Case 38: System Performance Test 38

Test ID	TC_038
Module	System > Module_4
Category	Performance
Priority	High
Test Type	Negative
Risk Level	High
Estimated Time	32 minutes
Description	Comprehensive performance validation test case 38
Objective	Validate performance requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to performance test area; Execute primary test workflow
Expected Result	System handles performance requirements correctly
Validation Criteria	Performance requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

### Test Case 39: System Integration Test 39

Test ID	TC_039
Module	System > Module_4
Category	Integration
Priority	Medium
Test Type	Boundary
Risk Level	Medium
Estimated Time	33 minutes
Description	Comprehensive integration validation test case 39

Objective	Validate integration requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to integration test area; Execute primary test workflow
Expected Result	System handles integration requirements correctly
Validation Criteria	Integration requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

### Test Case 40: System Usability Test 40

Test ID	TC_040
Module	System > Module_4
Category	Usability
Priority	Low
Test Type	Error
Risk Level	Low
Estimated Time	34 minutes
Description	Comprehensive usability validation test case 40
Objective	Validate usability requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to usability test area; Execute primary test workflow; V
Expected Result	System handles usability requirements correctly
Validation Criteria	Usability requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

### Test Case 41: System Functional Test 41

Test ID	TC_041
Module	System > Module_5
Category	Functional
Priority	Critical
Test Type	Positive
Risk Level	High
Estimated Time	15 minutes
Description	Comprehensive functional validation test case 41
Objective	Validate functional requirements and system behavior

Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to functional test area; Execute primary test workflow;
Expected Result	System handles functional requirements correctly
Validation Criteria	Functional requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

## Test Case 42: System Security Test 42

Test ID	TC_042
Module	System > Module_5
Category	Security
Priority	High
Test Type	Negative
Risk Level	High
Estimated Time	16 minutes
Description	Comprehensive security validation test case 42
Objective	Validate security requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to security test area; Execute primary test workflow; V
Expected Result	System handles security requirements correctly
Validation Criteria	Security requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

## Test Case 43: System Performance Test 43

Test ID	TC_043
Module	System > Module_5
Category	Performance
Priority	Medium
Test Type	Boundary
Risk Level	Medium
Estimated Time	17 minutes
Description	Comprehensive performance validation test case 43
Objective	Validate performance requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available

Test Steps	Access the system using appropriate credentials; Navigate to performance test area; Execute primary test workflow
Expected Result	System handles performance requirements correctly
Validation Criteria	Performance requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

### Test Case 44: System Integration Test 44

Test ID	TC_044
Module	System > Module_5
Category	Integration
Priority	Low
Test Type	Error
Risk Level	Low
Estimated Time	18 minutes
Description	Comprehensive integration validation test case 44
Objective	Validate integration requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to integration test area; Execute primary test workflow
Expected Result	System handles integration requirements correctly
Validation Criteria	Integration requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

### Test Case 45: System Usability Test 45

Test ID	TC_045
Module	System > Module_5
Category	Usability
Priority	Critical
Test Type	Positive
Risk Level	High
Estimated Time	19 minutes
Description	Comprehensive usability validation test case 45
Objective	Validate usability requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to usability test area; Execute primary test workflow; V

Expected Result	System handles usability requirements correctly
Validation Criteria	Usability requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

### Test Case 46: System Functional Test 46

Test ID	TC_046
Module	System > Module_5
Category	Functional
Priority	High
Test Type	Negative
Risk Level	High
Estimated Time	20 minutes
Description	Comprehensive functional validation test case 46
Objective	Validate functional requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to functional test area; Execute primary test workflow;
Expected Result	System handles functional requirements correctly
Validation Criteria	Functional requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

### Test Case 47: System Security Test 47

Test ID	TC_047
Module	System > Module_5
Category	Security
Priority	Medium
Test Type	Boundary
Risk Level	Medium
Estimated Time	21 minutes
Description	Comprehensive security validation test case 47
Objective	Validate security requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to security test area; Execute primary test workflow; V
Expected Result	System handles security requirements correctly

Validation Criteria	Security requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

### Test Case 48: System Performance Test 48

Test ID	TC_048
Module	System > Module_5
Category	Performance
Priority	Low
Test Type	Error
Risk Level	Low
Estimated Time	22 minutes
Description	Comprehensive performance validation test case 48
Objective	Validate performance requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to performance test area; Execute primary test workflow
Expected Result	System handles performance requirements correctly
Validation Criteria	Performance requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

### Test Case 49: System Integration Test 49

Test ID	TC_049
Module	System > Module_5
Category	Integration
Priority	Critical
Test Type	Positive
Risk Level	High
Estimated Time	23 minutes
Description	Comprehensive integration validation test case 49
Objective	Validate integration requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to integration test area; Execute primary test workflow
Expected Result	System handles integration requirements correctly
Validation Criteria	Integration requirements are satisfied; System maintains stability; Data integrity is preserved

Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

### Test Case 50: System Usability Test 50

Test ID	TC_050
Module	System > Module_5
Category	Usability
Priority	High
Test Type	Negative
Risk Level	High
Estimated Time	24 minutes
Description	Comprehensive usability validation test case 50
Objective	Validate usability requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to usability test area; Execute primary test workflow; V
Expected Result	System handles usability requirements correctly
Validation Criteria	Usability requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

### Test Case 51: System Functional Test 51

Test ID	TC_051
Module	System > Module_6
Category	Functional
Priority	Medium
Test Type	Boundary
Risk Level	Medium
Estimated Time	25 minutes
Description	Comprehensive functional validation test case 51
Objective	Validate functional requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to functional test area; Execute primary test workflow;
Expected Result	System handles functional requirements correctly
Validation Criteria	Functional requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup

Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)
-------	--

### Test Case 52: System Security Test 52

Test ID	TC_052
Module	System > Module_6
Category	Security
Priority	Low
Test Type	Error
Risk Level	Low
Estimated Time	26 minutes
Description	Comprehensive security validation test case 52
Objective	Validate security requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to security test area; Execute primary test workflow; V
Expected Result	System handles security requirements correctly
Validation Criteria	Security requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

### Test Case 53: System Performance Test 53

Test ID	TC_053
Module	System > Module_6
Category	Performance
Priority	Critical
Test Type	Positive
Risk Level	High
Estimated Time	27 minutes
Description	Comprehensive performance validation test case 53
Objective	Validate performance requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to performance test area; Execute primary test workflow
Expected Result	System handles performance requirements correctly
Validation Criteria	Performance requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

## Test Case 54: System Integration Test 54

Test ID	TC_054
Module	System > Module_6
Category	Integration
Priority	High
Test Type	Negative
Risk Level	High
Estimated Time	28 minutes
Description	Comprehensive integration validation test case 54
Objective	Validate integration requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to integration test area; Execute primary test workflow
Expected Result	System handles integration requirements correctly
Validation Criteria	Integration requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

## Test Case 55: System Usability Test 55

Test ID	TC_055
Module	System > Module_6
Category	Usability
Priority	Medium
Test Type	Boundary
Risk Level	Medium
Estimated Time	29 minutes
Description	Comprehensive usability validation test case 55
Objective	Validate usability requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to usability test area; Execute primary test workflow; V
Expected Result	System handles usability requirements correctly
Validation Criteria	Usability requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

### Test Case 56: System Functional Test 56

Test ID	TC_056
Module	System > Module_6
Category	Functional
Priority	Low
Test Type	Error
Risk Level	Low
Estimated Time	30 minutes
Description	Comprehensive functional validation test case 56
Objective	Validate functional requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to functional test area; Execute primary test workflow;
Expected Result	System handles functional requirements correctly
Validation Criteria	Functional requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

### Test Case 57: System Security Test 57

Test ID	TC_057
Module	System > Module_6
Category	Security
Priority	Critical
Test Type	Positive
Risk Level	High
Estimated Time	31 minutes
Description	Comprehensive security validation test case 57
Objective	Validate security requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to security test area; Execute primary test workflow; V
Expected Result	System handles security requirements correctly
Validation Criteria	Security requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

### Test Case 58: System Performance Test 58

Test ID	TC_058
Module	System > Module_6
Category	Performance
Priority	High
Test Type	Negative
Risk Level	High
Estimated Time	32 minutes
Description	Comprehensive performance validation test case 58
Objective	Validate performance requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to performance test area; Execute primary test workflow
Expected Result	System handles performance requirements correctly
Validation Criteria	Performance requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

### Test Case 59: System Integration Test 59

Test ID	TC_059
Module	System > Module_6
Category	Integration
Priority	Medium
Test Type	Boundary
Risk Level	Medium
Estimated Time	33 minutes
Description	Comprehensive integration validation test case 59
Objective	Validate integration requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to integration test area; Execute primary test workflow
Expected Result	System handles integration requirements correctly
Validation Criteria	Integration requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

### Test Case 60: System Usability Test 60

Test ID	TC_060
---------	--------

Module	System > Module_6
Category	Usability
Priority	Low
Test Type	Error
Risk Level	Low
Estimated Time	34 minutes
Description	Comprehensive usability validation test case 60
Objective	Validate usability requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to usability test area; Execute primary test workflow; V
Expected Result	System handles usability requirements correctly
Validation Criteria	Usability requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

### Test Case 61: System Functional Test 61

Test ID	TC_061
Module	System > Module_7
Category	Functional
Priority	Critical
Test Type	Positive
Risk Level	High
Estimated Time	15 minutes
Description	Comprehensive functional validation test case 61
Objective	Validate functional requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to functional test area; Execute primary test workflow;
Expected Result	System handles functional requirements correctly
Validation Criteria	Functional requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

### Test Case 62: System Security Test 62

Test ID	TC_062
Module	System > Module_7

Category	Security
Priority	High
Test Type	Negative
Risk Level	High
Estimated Time	16 minutes
Description	Comprehensive security validation test case 62
Objective	Validate security requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to security test area; Execute primary test workflow; V
Expected Result	System handles security requirements correctly
Validation Criteria	Security requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

### Test Case 63: System Performance Test 63

Test ID	TC_063
Module	System > Module_7
Category	Performance
Priority	Medium
Test Type	Boundary
Risk Level	Medium
Estimated Time	17 minutes
Description	Comprehensive performance validation test case 63
Objective	Validate performance requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to performance test area; Execute primary test workflow
Expected Result	System handles performance requirements correctly
Validation Criteria	Performance requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

### Test Case 64: System Integration Test 64

Test ID	TC_064
Module	System > Module_7
Category	Integration

Priority	Low
Test Type	Error
Risk Level	Low
Estimated Time	18 minutes
Description	Comprehensive integration validation test case 64
Objective	Validate integration requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to integration test area; Execute primary test workflow
Expected Result	System handles integration requirements correctly
Validation Criteria	Integration requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)

### Test Case 65: System Usability Test 65

Test ID	TC_065
Module	System > Module_7
Category	Usability
Priority	Critical
Test Type	Positive
Risk Level	High
Estimated Time	19 minutes
Description	Comprehensive usability validation test case 65
Objective	Validate usability requirements and system behavior
Preconditions	System is deployed and accessible; Test environment is configured; Required test data is available
Test Steps	Access the system using appropriate credentials; Navigate to usability test area; Execute primary test workflow; V
Expected Result	System handles usability requirements correctly
Validation Criteria	Usability requirements are satisfied; System maintains stability; Data integrity is preserved
Dependencies	System deployment; Test data setup
Notes	Fallback test case generated due to parsing error: Expecting ',' delimiter: line 1106 column 60 (char 49146)
